

# A-Clean / Antimoss

## Product description

Iso A-Clean is delivered as a concentrate. It must be diluted and can be used for all washable surfaces. Iso A-clean is very effective, it disinfects areas with growth of algae, bacteria and fungi.

## Use

Iso A-Clean can be used on a variety of surfaces such as: roofs, facades, tiles and similar. Mix 1 part Iso A-Clean with 25-50 parts of water depending on how strong you want the cleanser. After the treatment it works for 3-5 days to remove the growth. Iso A-Clean must be used in dry weather. To avoid contact with skin or eyes protective gloves and goggles are mandatory during application. Do not use for fish ponds and similar. Make sure Iso A-Clean does not get into the aquatic environment.
